LVTONG[®]

Guangdong Lvtong New Energy Electric Vehicle Technology Co., LTD.

ABOUT US

Guangdong Lvtong New Energy Electric Vehicle Technology Co., LTD. (stock code: 301322) was founded in 2004, stands in Dongguan City, Guangdong Province, China.

With an area of more than 200,000 square meters, its annual capacity is about 20,000 units. We are a professional modern enterprise specialized in research, production & sales of floor cleaning machines. A professional R&D team is our strong backup. We concentrate on product innovation and upgrade. Products include walk-behind floor scrubbers, ride-on floor scrubbers and ride-on floor sweepers. All our products comply with international quality standards and achieve energy-saving, low consumption, high efficiency and eco-friendly performance. With the concept of "Quality first, Customer first", we believe that we will not only win the customer but also will the market.

LVTONG®

Q5 WALK-BEHIND FLOOR SCRUBBER

Advantages

- Smart designed control panel.
- Innovative and intelligent PCBA control with multi-protection function.
 - a) Low battery warning and protection.
 - b) Overcurrent and short circuit protection.
- Only 6 electric wires for the whole machine, easy for after-sales service.
- Intelligent automatic install brush and release brush.

Product multi-angle display

Product parameter

Model	Q5	Product dimensions	1250*500*990mm
Battery capacity	24V/100Ah	Package dimensions	1340*650*1140mm
Brush/Suction motor	550W/450W	Scrubbing width	510mm (19 inch brush)
Clean water tank capacity	50L	Squeegee width	850mm
Recovery tank capacity	55L	Working time	3~5 hours
Max theoretical work efficiency	1980m/h	Net weight	175kg
Applying space	500-2000m²	Gross Weight	205kg

LT-S530X WALK-BEHIND FLOOR SCRUBBER

Advantages

- Light intelligence.
- LCD color screen display.
- One-click startup.
- Automatic lifing brush and squeegee.
- Standard lithium battery.
- Die-casting aluminum squeegee components, more durable.

Product multi-angle display

Product parameter

Model	LT-S530X	Product dimensions	1370*502*1040mm
Battery capacity	24V1100Ah	Package dimensions	1500*680*1200mm
Brush motor	550W	Scrubbing width	530mm(21 inch brush)
Suction motor	450W	Squeegee width	890mm
Clean water tank capacity	60L	Working time	3~5h
Recovery tank capacity	65L	Charging time	5h
Max theoretical work efficiency	2100m²/h	Charger	24V20A (Lithium battery)
Net weight	123kg	Work noise	70 dbA

Screen

LCD color display screen

Operation panel

Intelligent operation panel,
multiple programs adjustable.

Operating armrest

Ergonomic design,easier to operate

Float valve filter

Prevent debris from clogging the
pipes and alarm when the
recovery tank is full

Ambient lighting

differentiated and personalized
customization

Speed Pedal

Integrating acceleration,brake and
parking together

Tire

Aluminum alloy rims: light weight,beautiful
appearance,good heat dissipation
performance, can increase the life
of tires and brake pads

Brush cover

Prevent water from spraying out
during working

Battery

Standard lithium battery

Clean water tank entrance

Roto-molding process, more durable

Anti-collision wheel

Protect the brush plate from being
accidentally scratched during operation

Squeegee assembly

Die-casting aluminum squeegee
components,more durable

Screen

LCD color display screen

Operating armrest

Ergonomic design,easier to operate

Warning light

Working warning,reversing
warning

Float valve filter
